If you are new to India, don't go there without reading this book!

By Barry Cardoza

I can't imagine how I would have navigated (literally and socially) through my first and lengthy trip to India if I hadn't first read this book. India is an absolutely awesome country, But, for someone like me (from the U.S.) it is also much like being on a different planet. My journey through India from Delhi to Bangalore was the most exciting of my life. But, I have to attribute much of my "comfort" during that journey to having been as culturally prepared as possible before I got there by reading this book.

Fun to read, possibly may be exaggerated

By Sarah Balbi

I'm glad I read this book because I shared it with my fiancé who is from India. We plan to travel there soon. He said the babies peeing on the ground freely is not true. He never experienced seeing that. But it was good to know no kisses in public. Fun to draw our conversations and see what is true and not true.

Recommend with a the notion of taken with a grain of salt. Very exciting and fun read. I just have to go and see for myself what is true or exaggerated.

Must read if you travel in India

By JGriffin

Very entertaining and informative read; thorough and comprehensive. Covers a wide range of topics of interest to anyone who travels in India or wants to understand Indian culture.
