Does a good job of making this topic interesting

By Deborah Moore

I have been impressed by the writers' ability to make a difficult topic easy to understand and even enjoyable to read about. I had to purchase this textbook for a class in my masters program and I plan on keeping it when the class is over. I do think it's too expensive.

Hated!

By chelleisay

I had to purchase this book for a graduate class. I hated reading it. It was so slow and the author repeated herself ALL the time. It was horrible. I'm sure there had to have been a better curriculum book out there. I felt like everything I read was something I already knew.
