This is a best book Edie: American Girl By Jean Stein that originates from terrific author to show you. The book Edie: American Girl By Jean Stein provides the best encounter as well as lesson to take, not only take, however additionally find out.

### Review

“This is the book of the Sixties that we have been waiting for.”—Norman Mailer

“Extraordinary . . . a fascinating narrative that is both meticulously reported and expertly orchestrated.”—Michiko Kakutani, *New York Times*

“The ultimate oral history and still the most objectively cool book I’ve ever read. It’s perfectly structured and the most important book about America in the 1960s.”—Sloane Crosley, *T: The New York Times Style Magazine*

“An exceptionally seductive biography. . . . You can’t put it down. . . . It has novelistic excitement.”—*Los Angeles Times Book Review*

“Jean Stein’s 1982 book *Edie: American Girl*, edited with George Plimpton . . . gave oral history the particular shimmer that comes when lofty literary aims happen to coincide with sheer entertainment value . . . . *Edie* gave an almost mythic quality to its subject’s persona and her brief rise and fall, yet in its telling you could also follow clear lines connecting disparate pieces of 20th-century American life: the hollow cult of celebrity; the fragile prospect of greater opportunity for women; the intoxicating dream of the West for certain Easterners; the peculiar pathologies of the very rich.”—*Maria Russo, New York Times Book Review*

“Through a kaleidoscope of seemingly fragmented voices, patterns form, giving brilliant definition to the very American tragedy of Edie Sedgwick, a woman . . . not likely to be forgotten after this haunting portrait.”—*Publishers Weekly*

“What makes this book so unusual, unique almost, is the picture it paints of the New York counterculture. No one has ever done it better.”—*Atlanta Journal & Constitution*

“Is anyone capable of picking up . . . *Edie* and putting it down before the very last page?”—*Pamela Paul, New York Times Book Review*

“There is no more classic summertime read.”—*New York Magazine*

From the Inside Flap

When Edie was first published in 1982 it quickly became an international best-seller and then took its place among the classic books about the 1960s. Edie Sedgwick exploded into the public eye like a comet. She seemed to have it all: she was aristocratic and glamorous, vivacious and young, Andy Warhol's superstar. But within a few years she flared out as quickly as she had appeared, and before she turned twenty-nine she was dead from a drug overdose.

In a dazzling tapestry of voices--family, friends, lovers, rivals--the entire meteoric trajectory of Edie Sedgwick's life is brilliantly captured. And so is the Pop Art world of the '60s: the sex, drugs, fashion, music--the mad rush for pleasure and fame. All glitter and flash on the outside, it was hollow and desperate within--like Edie herself, and like her mentor, Andy Warhol. Alternately mesmerizing, tragic, and horrifying, this book shattered many myths about the '60s experience in America.

"This is the book of the Sixties that we have been waiting for."--Norman Mailer

"Through a kaleidoscope of seemingly fragmented voices, patterns form, giving brilliant definition to the very American tragedy of Edie Sedgwick, a woman...not likely to be forgotten after this haunting portrait."--Publishers Weekly

"Extraordinary...a fascinating narrative that is both meticulously reported and expertly orchestrated."--The New York Times

"An exceptionally seductive biography.... You can't put it down.... It has novelistic excitement."--Los Angeles Times Book Review

"What makes this book so unusual, unique almost, is the picture it paints of the New York counterculture. No one has ever done it better."--The Atlanta Journal & Constitution

Jean Stein has worked as an editor for a number of magazines, including The Paris Review and Esquire, when it was under the direction of the near-legendary magazine editor Clay Felker. In the 1960s, she moved to Washington, D.C. where, through her husband, attorney William Vanden Heuvel, she became interested in the political career of Robert F. Kennedy. Following his assassination, she completed her first book, an oral history of his life entitled American Journey. In 1990, she became the editor of the literary journal Grand Street. She has two daughters: Wendy, an actress, and Katrina, the editor-in-chief of The Nation.

Never made it to the part about Edie.

By f.e. van dunne

Not for me. I wanted to read about Edie, not the whole family history. Gave up after a while and never made it to the material I bought the book for.

I would definitely recommend you download the sample first to see if this book is for you.

Psychology of a tragic heroine

By A Customer

It's funny how a person's childhood experiences can set a person up for success or failure as an adult. However, in the case of Edie Sedgwick, her failures as an adult were definitely unfunny. I loved that this book relied only on quotes from the people who had met/known her. Exceptional research into every stage of Edie's life to uncover people who experienced her in each incarnation and brilliant editing make this an extremely special biography. It is evident that the choices the adult Edie made which were ultimately destructive were foreshadowed by events in her childhood. I don't think it's necessary for you to be fascinated by the scenes Edie lived through to enjoy the book. If you approach this as a psychological study of an individual, it becomes mainstream reading, not just a pop-culture chronicle.

A reread from many years ago when I was well ...

By Amazon Customer

A reread from many years ago when I was well versed with the players. The changing perspectives give nuanced view of Edie's short live.
