Firefox Down! By Craig Thomas. In what case do you like reading a lot? Just what concerning the kind of guide Firefox Down! By Craig Thomas The demands to read? Well, everybody has their own reason why should check out some publications Firefox Down! By Craig Thomas Primarily, it will associate with their requirement to obtain understanding from the e-book Firefox Down! By Craig Thomas and also intend to check out simply to obtain entertainment. Novels, tale e-book, and other amusing books end up being so popular this day. Besides, the clinical e-books will also be the finest factor to select, especially for the pupils, instructors, doctors, business owner, and also other occupations which are warm of reading.

As recognized, experience as well as experience concerning lesson, amusement, and also knowledge can be obtained by just reading a publication Firefox Down! By Craig Thomas Also it is not directly done, you can recognize even more concerning this life, regarding the world. We offer you this appropriate and easy way to gain those all. We offer Firefox Down! By Craig Thomas and also lots of book collections from fictions to science in any way. Among them is this *Firefox Down! By Craig Thomas* that can be your partner.

What should you believe much more? Time to get this [Firefox Down! By Craig Thomas](#) It is very easy after that. You could only sit as well as stay in your location to get this publication Firefox Down! By Craig Thomas Why? It is online book store that give a lot of collections of the referred publications. So, simply with net connection, you could take pleasure in downloading this publication Firefox Down! By Craig Thomas and also varieties of publications that are hunted for now. By seeing the link page download that we have actually given, guide Firefox Down! By Craig Thomas that you refer so much can be found. Merely conserve the asked for book downloaded and install and after that you could delight in the book to read every single time and place you want.

FIREFOX DOWN! BY CRAIG THOMAS PDF

FIREFOX was the supersonic thriller of a reckless Western scheme to hijack Soviet Russia's most lethally sophisticated warplane. FIREFOX DOWN is the stunning sequel to that daring undercover operation - a stupendous Mach-5 all-action read that will pin you to your seat with suspense! After a hair-raising landing, the hijacked Firefox lies entombed in a frozen lake 20 miles from the Norwegian frontier. Its pilot, Mitchell Gant, is running for his life from the tracker dogs and helicopter patrols of the KGB border guard. As international tension mounts, East and West wage a desperate behind-the-scenes battle - a frantic race to recover the Firefox!

The 'Fox shall rise again!!!

By Rottenberg's rotten book review

Poor Mitchell Gant, the burnt-out Vietnam vet and ex-fighter jock dragooned by "The Company" to sneak into Russia and steal the latest Soviet wonder fighter plane, "Firefox". Having barely survived storms of Russian missiles and a close dogfight with the other Firefox prototype, he discovers (in the first few pages of "Firefox Down") that he's running out of fuel. Mustering all of his flying skills, and after another un-in with other Russian jets, Gant lands on a frozen lake in Finnish Lapland, outside of Russia - but not far enough. Barely getting out of the empty Russian jet before it sinks under a frozen lake, Gant is captured by the Russians. The western spymasters, too late to save Gant, quickly locate the Firefox, but are cut off by a blizzard. Thus starts the race - for the west to break out of the storm before the Russians learn the superplane's location.

Few sequels measure up to their original, fewer ofcourse succeed, but "Down" is atleast the match of the first book. Picking up exactly where the last let off, Thomas displays his masterful sense of precisely paced action, riveting aerial scenes and nuanced characters. Not as personal a novel as "Firefox", which was more centered around pilot/pirate Mitchell Gant, "Down" is more of an ensemble piece with more characters in the trenches. Still, Gant, seemingly played out in the last book, continues to reveal more scars, unpeeling himself like an onion. This isn't your typical paper-thin technothriller, but you knew that already if you read "Firefox".

Superb Sequel to FIREFOX!

By A Customer

This novel is an excellent follow up to FIREFOX, and it takes place right where the first book left off. If you are eager to find out what happens to Gant and the Firefox after the first book, or the movie, you must read this book! Warning though, this book is VERY suspenseful, with Gant forced to land in Finland and NATO and Soviet forces rushing to retrieve the incredible superfighter. This book holds onto all the great qualities of the first book, and you will not put it down. For fans of FIREFOX, aircraft, espionage, suspense, and military fiction, this is a must read and you will not be disappointed.

Plodding, predictable sequel to a superior book and movie

By Elrond Halfelven

Author Craig Thomas had high hopes for this novel. Perhaps he had hoped it (like its predecessor "Firefox") would be made into a big budget motion picture. Thomas dedicated "Firefox Down!" to Clint Eastwood "the pilot of the Firefox" perhaps with the intention to butter him up. Needless to say, over thirty years later, "Firefox Down!" has never been made into a motion picture, and the book is, as of this review, not surprisingly out of print. Granted, "Firefox Down!" is a competent sequel. At times, however the plot drags on, seems all together too predictable for over 250 pages, and then the action packed climax, is over and done, with hardly any satisfaction to the reader. Some of the novel is also highly implausible. For example, Mitchell Gant gets captured, sent back to Moscow to a heavily guarded KGB chemical interrogation unit, gets injected with mind altering drugs, and somehow he manages to escape almost as quickly as he is incarcerated, single handedly, in hospital clothes, wielding only a pistol, and scissors! Many of the characters from "Firefox" return in the sequel, and Craig Thomas gives many of them more fleshed out, expanded roles, especially Dmitri Priabin, who becomes a main character in "Firefox Down!" Priabin is torn between killing the escaped Mitchell Gant, and saving the life of his mistress Anna, who is coerced into helping Mitchell Gant escape the Soviet Union. Anna is a new character that is simply disposed of when she becomes no longer useful to the plot. To its credit, I managed to finish "Firefox Down!" but after a month and half, it felt like a ponderous chore. With all honesty, stick to reading Craig Thomas's "Firefox", and see the movie with Clint Eastwood (even WITH its cheesy fighter plane special effects). You can find better books to read than its sequel.
