## **Review**

You're actually doing too good - you are able to look very deep into my psyche. I have to say I'm impressed. This is fantastically interesting. Handwriting Analysis is something that I was skeptical about, but you have made a believer out of me, so I hope others who are skeptical give it a chance. --Plum TV in Vail CO

The simplest, yet most informative graphology book ever written!

By oldeworld

Kathi McKnight was on the Dr. Oz show speaking about graphology, the science of analyzing a person's personality and health issues from their handwriting. I was amazed with her accurate, professional profile on Dr. Oz's handwriting. This intrigued me greatly, so I bought her 66-page spiral-bound book immediately after the show, and I'm glad I did!

I have purchased other graphology books in the past, but they were tedious, long, technical and verbose. In comparison, Kathi's book has large print, double spacing between paragraphs and one underlined handwriting example on each page. Yes, there is ONE bold heading on each page with ONE example! That's it. So simple, yet so instructive. What a fun way to learn graphology. There is even a section designated to practicing the trait under the example. Finally, on the bottom of each page is a quote or word of wisdom to remind us that our inner self reflects outward through our handwriting.

"Truth is within ourselves." Robert Browning

Kathi's "Handwriting Analysis" is a delightful, concise, informative book, related practice lesson plan and self-help manual all in one. It is a quick, easy reference guide each and every time. I am now inspired to begin my own handwriting profile analysis on friends and family. I, for one, hope Kathi McKnight will write her next book soon in the very near future!

Handwriting Analysis

By Linda

It was much "less" than I expected. I was expecting much more information than it gave. It was more like a workbook with skimpy explanations. I was looking for more analysis.

3 of 3 people found the following review helpful.

not really that informative

By Blanche Sarong

I saw this author on Dr. Oz & thought this book would be interesting, but it's basically an ad for going to the author's website for more information. ugh!
