Interesting Read

By Michelle Doucet

The personality type the author is describing in this book is very much like the character Sheldon on "The Big Bang Theory". I found the book very interesting and informative. Although it surely would not be considered lite reading, it will stimulate your mind and help you better understand why people with this particular personality trait act the way they do. So if you are looking to expand your knowledge of the human psyche, I would recommend this book.

Quick Read

By A. Mcpherson

This was a quick read but I feel more comfortable now that I understand my strengths and weaknesses. However, this is not a book for those who want something in depth.

Great Book. However it did not download to any of my devices correctly. It either omitted text on several pages or repeated the same text under different headings.
