From Publishers Weekly

Judy Blume's body of work returns to her original editor, Richard Jackson, with the rerelease of four classics in hardcover. An African-American family moves to all-white Grove Street in Iggie's House, to be released in April. The author's breakthrough title, *Are You There God? It's Me, Margaret*, about 11-year old Margaret Simon's struggles with puberty and religion, is now available in hardcover as well as in a Spanish-language edition, *Estas ahí Dios? Soy yo, Margaret*. Two additional titles came out last season: *Blubber* takes on preteen teasing; and *It's Not the End of the World* explores the effects of divorce.

IT'S NOT THE END OF THE WORLD BY JUDY BLUME PDF

Can Karen keep her parents from getting a divorce? This classic novel from Judy Blume has a fresh new look.

Karen couldn't tell Mrs. Singer why she had to take her Viking diorama out of the sixth-grade showcase. She felt like yelling, "To keep my parents from getting divorced!" But she couldn't say it, and the whole class was looking at her anyway.

Karen's world was ending. Her father had moved out of the house weeks before; now he was going to Las Vegas to get divorced, and her mother was pleased! She had only a few days to get the two of them together in the same room. Maybe, if she could, they would just forget about the divorce. Then the Newman family could be its old self again—maybe. But Karen knew something she didn't know last winter: that sometimes people who shouldn't be apart are impossible together.

The best book for children coping with divorce.

By Diaspora Chic

Now in my late twenties, I read this book when I was entering fourth grade and I liked very much reading it. Although my parents are still together, there are children, even as adults, dealing with divorce. Karen Newman, the main character of the book, is coping with the unexpected events that are going on during her parents separation. She meets another girl that lives in the same building as her father whose parents are divorced. However, her reaction to her parents' breakup is much different from Karen's. She already knew from an early age that her father's role in her life was a small part. She accepts her mother being a single parent and going back out into the dating scene. Karen eventually gets through and comes to the conclusion that her parents aren't getting back. This is an interesting read not only for children, but for adults as well.

It's Not The End Of The World

By A Customer

Karen is an ordinary girl who's parents are going through a very hard time. They always have arguments over really stupid things like about pie, and other stuff too! They are never satisfied with each other and really don't get along anymore! But Karen always try to get them to get back together, and tries her best. It was really hard for her to keep on seeing her parents unhappy, or depress. It is also very hard for her because she's always moving around. These days she stays with her dad, the other days she stays with her mom. She really hates moving around, all she wanted is to be in one place living with both of her parents. One Wednesday when she was at her dad's, she met a friend name Val, and her parents are the same. Then Val introduced her to a book about divorce, and she read it. It was still a lot hard for her. But she finally learned that life is not always what she wants. She actually got used to her parents divorce. I think that this book is very touching. I feel the same and I understand how she feels because I went through the same thing. But now I know that it's better for your parents, because they don't fight anymore...and when they're separated, they get what they want, and live the life happier. I give this book a 5, because it's wonderful, and touching. I agree with the author, and she's great

This book is not for people who easily cry.

By A Customer

This book was very good, but I felt like crying as I read it. It's about a girl named Karen whose parents can't stand to be in the same room together. They get divorced and Karen hates it. She won't stop at nothing to get them back together. She sends them a Happy Anniversary card in the mail, invites them both over to show them her Viking diorama. In the end her brother runs away and Karen's parents get in such a big fight that it seems that they want to kill each other! Karen then realizes that they won't get back together and gets on with her life getting used to the fact that her parents are divorced and there's nothing she can do about it. This book was excellent and would receive 10 stars from me although it was sad and made me want to cry.
