Three months ago, I nearly lost my best friend while retrieving the first instrument of assassination. I also inadvertently released a rival who was definitely unhinged, way more powerful than me, and obsessed with harnessing the deadly power of the artifacts I'd been tasked by the guardian dragons to collect. Add a sexy sentinel and a nearly immortal vampire to the mix, and what could possibly go wrong? Knowing my luck, I was about to find out.

I Don't Know What to Think

By J.C. Prins

I liked the book. I really enjoyed spending time with Kett. I liked the fight in the bakery and meeting Blossom. However, I felt like during the actual treasure hunt that things happened through luck rather than by tapping into Jade's magic. The resolution of the various crises was all done off-screen with no explanation. So, as I said, I enjoyed the book, but character appearances seemed pro forma and the story was not as completely satisfying as it could have been. The ending was just abrupt. So, I would recommend the book as a continuation of the ongoing story arc, but it is not my favorite of the series.

Great read!

By Chad B.

Loved the adventure and the tension between the characters. I almost lapsed into a chocolate coma from the vivid descriptions throughout each chapter. Looking forward to the next book and next adventure...as long as it's filled with German Chocolate Cake and lots of peppermint with a faint hint of spice. Yum.

Great read. It's a great series and I love the characters. I missed kandy though, but overall still a great book. I would definitely recommend it to anyone looking for a world to lose themselves in.
