Why is James Patterson Still Allowed to Write Teenagers

By Natalie M

I'm not sure what I expected from this book but it was enough to be instantly disappointed and irritated when I opened it. I wasn't even two pages in and I was irritated with how self-centered Max has become, the lack of explanation for absolutely everything, and why Dylan was still necessary to the plot (spoiler: he never was). James Patterson's style hasn't evolved at all over the course of nine book and neither have his characters despite the fact that they're children who have been through multiple traumatic, life-changing events over two to three years. Kids change from week to week and month to month; realistically, none of the characters would stagnate and stay unchanged, completely the same as they were on the first page of the first book (aside from Max becoming increasingly self-centered throughout the books).

Aside from his inability to create believable characters that evolve over time, Patterson's world building is absolutely abysmal and rarely ventures beyond "Itex BAD" and after Itex eliminated, he did practically the same thing to the next evil movements that the Flock came up against. We barely know what their motivations are, we don't really know what they want with the Flock, and there's never a real explanation of how they're going to achieve their incredibly vague goals.

There's absolutely nothing about these books that make me excited anymore and the lack of world building is the top of the list; when I first read these books, I was in fifth grade and I could forgive that the characters were nothing like the other kids and teenagers I knew. I had enough imagination and little real world experience to not care that there were plot holes, absolutely no world building, and that the villains

motivations didn't quite add up. I'm older now and I can't forgive the mistakes of these books anymore, especially now that the ninth book of the series has shown that James Patterson still has absolutely no clue how to write a teenage girl.

I have other grievances with the series but it's too much to type out at 10 AM. Bottom line: James Patterson should probably have never written a book about teenagers in the first place.

Great Book!

By Crystal Gonzalez

As the mom to daughters who read above their grade level, I am constantly looking for books that will last them more than a day but will not be over their heads, James Patterson is amazing at this! We all love his books (from ages 13 to 37) and every book he has written has kept us all entertained! The pace is steady and you do not have to worry about being bored because the characters and their situations will keep you on your toes! This (plus many others) will be going on the bookshelf to be re-read...it's that good!

To Die For

I've read all the Maximum Ride books and I loved it. This last book made me cry. It was really good and the readers will love how Max's journey ends. It would be nice if James Patterson did more.
