From School Library Journal

Gr 9 Up—Emily's world is just the way she thinks she wants it to be...calm, normal, and filled with the love of her mother and stepfather. She denies an interest in Eli's world, her biological father, who is an important member of the Reign of Terror motorcycle gang. While she does seem to have some questions about Eli, Emily doesn't want to explore her dad's world in any depth. When her parents tell her she will be attending Eli's mother's wake, she is not thrilled, but agrees to go. There, she is thrown into a world of feuding motorcycle gangs, family secrets, and complicated feelings for a young man named Oz. One quick visit turns into an extended trip as the teen tries to unravel the mysteries of her parents' pasts, learning her place in two communities, and investigating her growing feelings for Oz. Emily starts to discover there may be more to life than her protected version. McGarry adeptly splits the narrative between the two protagonists and creates a story that readers will not want to put down. VERDICT This novel will be enjoyed by teens looking for a romantic and thrilling escape.—Jessica Strefling, Pepperdine School of Law Library, CA

Review

"Tantalizing secrets and larger-than-life characters leap off the page in McGarry's new Thunder Road series...With quirky secondary characters who will capture your heart and a remarkable twist, McGarry will leave you desperate for the next installment!" --RT Book Reviews (4.5 stars)

"McGarry...creates a story that readers will not want to put down...This novel will be enjoyed by teens looking for a romantic and thrilling escape." --Library School Journal

"The core relationship sizzles and sparks with every glance and touch..." --Publisher's Weekly

It's so very easy therefore fats, right? You have to prefer to through this.

NOWHERE BUT HERE (THUNDER ROAD) BY KATIE MCGARRY PDF

An unforgettable new series from acclaimed author Katie McGarry about taking risks, opening your heart and ending up in a place you never imagined possible

Seventeen-year-old Emily likes her life the way it is: doting parents, good friends, good school in a safe neighborhood. Sure, she's curious about her biological father—the one who chose life in a motorcycle club, the Reign of Terror, over being a parent—but that doesn't mean she wants to be a part of his world. But when a reluctant visit turns into an extended summer vacation among relatives she never knew she had, one thing becomes clear: nothing is what it seems. Not the club, not her secret-keeping father and not Oz, a guy with suck-me-in blue eyes who can help her understand them both.

Oz wants one thing: to join the Reign of Terror. They're the good guys. They protect people. They're...family. And while Emily—the gorgeous and sheltered daughter of the club's most respected member—is in town, he's gonna prove it to her. So when her father asks him to keep her safe from a rival club with a score to settle, Oz knows it's his shot at his dream. What he doesn't count on is that Emily just might turn that dream upside down.

No one wants them to be together. But sometimes the right person is the one you least expect, and the road you fear the most is the one that leads you home.

In Review: Nowhere But Here (Thunder Road #1) by Katie McGarry

By Kim

I'm terrible at deciding which books on my (massive) TBR pile need the most love. I also tend to fail at picking up books from my TBR when I have so many early review copies to choose from. I've taken steps towards changing that this year and I've been really happy to discover some real gems. Earlier this month, I asked for my readers to pick my TBR book for June from a list of three. Even though I wanted to read Nowhere But Here, it probably wasn't my first choice from the list, if I'm being honest. I am glad, however, I put it up to a vote. I ended up really enjoying this book.

I look at the hardcover version of this book and get a little twitchy because of the size of it. (I mean, nearly 500 pages, y'all.) It's been a long time since I read a book this long. That was one of the biggest reasons I'd not picked this one off my shelf sooner. I'm not a slow reader by any stretch of the imagination, but I still find myself intimidated by books this long. The other thing that kept me from jumping into this book sooner was the motorcycle club thing. Now, I'm used to Kristen Ashley's *very adult* MC romance. It was tough for me to imagine how in the world a YA book could possibly work. I'm happy to say I was just flat out dead wrong about that. It worked... really well.

This book did start out a little slow for me. I'm not gonna lie about that. But it wasn't a bad thing. I never felt like giving up on the book, even though it did take me an entire week to read. (But that wasn't all the fault of the book. It was a crazy week.) I loved reading along as Emily learning about this whole new part of her background. It was easy to put myself in her shoes and experience everything right along with her. How do you handle finding out a major part of your life has been a lie? Do you open yourself up to these new people who have entered your life? Do you hide your head and try to keep things the way they always were? Do you seek answers? I don't envy Emily for having to make those choices, but I was pretty happy overall with how she handled everything.

Oz was just wonderful. If it didn't feel a little creepy calling a kid his age a "book boyfriend" I would say he's a new one of mine. He was dealing with his own issues in this book and the very last thing he wanted – at first anyhow – was to be responsible for the "princess" Emily in any way. He was waiting to get patched into Reign of Terror, something he'd wanted his whole life. He was planning his future with the club and in general and Emily was probably the one thing that could get in the way.

I loved how Emily and Oz's relationship progressed. From disdain to understanding to friendship to love, we witnessed it all. It happened naturally and it felt real. This wasn't instalove or anything close. Because of Oz's charge to watch over her, they learned about each other and feelings changed. I loved that it wasn't rushed. They played off each other so well. Their feelings for each other were obvious and they were definitely responsible in some way for the other's growth during this book. It wasn't all sunshine and roses, however, but I'm not going to get into all that. Some things are better left experienced for yourself.

There was a lot going on in this book, but it flowed together really well. Emily's journey of self-discovery meshed well with Oz's. Emily was learning about herself and her family at the same time. She was letting new people into her world and realizing she was part of a bigger community that was unlike any she ever knew before. Then of course, you had all the situations dealing directly with the MC. I knew the members of Reign of Terror were keeping secrets and, despite trying to figure out what was going on for myself, I didn't get it until it basically slapped me in the face. I like being surprised. It doesn't happen all that often.

I really enjoyed Nowhere But Here. There was an interesting cast of characters introduced and I'm excited to see more from them as I continue on with the series. This book was the total package. I got sweet romance and age group appropriate relations, a hint of action and suspense and more than a few feels. I couldn't ask for more!

I received a copy of this book from the publisher in exchange for an honest review.

Another great one from McGarry and I am very much looking forward to getting to know more of the Snowflake crew

By Sam K

"Trust me to chase your monsters away." - Oz to Emily

I remember hearing Katie McGarry talk about this book at a con, and knew I would want to read it. I love that McGarry gives me a window into a world that is a somewhat normal, but a little grittier than I am accustomed to. This is a story of the prodigal MC princess, Emily, (unbeknownst to her) and an aspiring MC, Oz, who had grown up in that world. I really liked how McGarry presented the two worlds. She showed that they were different, at first glance, but underneath, it really was about family, love, and respect. The romance between Emily and Oz was very sweet, and unfolded slowly. As their feelings evolved, so did Emily and Oz. In the end, they both realized that what they had changed, and so did what they wanted. There were a lot of great characters in the story, and yeah!, the parents were actually "present" in the youngsters lives. There were quite a few really touching moments, and a few scary ones too, that combined with all the swoony, sexy stuff left me thoroughly entertained. I am very much looking forward to getting to know more of the Snowflake crew.
