Must have for Porsche people

By ap

This is the seminal book on air-cooled Porsche details, mods, maintenance, etc. If you are a DIY person and a Porsche enthusiast, then you must have this in your library. I am more of a purist, so I do not participate in any of the mods in the book, but even those sections give you a glimpse of the workings of your Porsche. If you have an interest in DIY maintenance at a pretty high level, then this is one of the books you should have.

0 of 0 people found the following review helpful.

Four Stars

By Dale Smith

Nice book very detailed although missing some cars!

0 of 0 people found the following review helpful.

Three Stars

By Bill

Was hoping for a bit more than overviews.
