TEACHING SCIENCE FOR ALL CHILDREN: AN INQUIRY APPROACH (WITH "VIDEO EXPLORATIONS" VIDEOWORKSHOP CD-ROM), MYLABSCHOOL EDITION (4TH EDITION) PDF

Organized around the four key areas of the learning cycle--Exploration, Explanation, Expansion, and Evaluation--the fourth edition continues to integrate the National Science Education Standards throughout. It provides methods for future teachers to foster awareness among their students of the nature of science; to implement skills in the classroom using science inquiry processes; and to develop in their students an understanding of the interactions among science, technology, and society.

Teaching Science

By Rebecca A Lehman

This book is helpful for teachers or pre-teachers who want to teach science in a good way. The inquiry approach seems to be the best way! The person who sent this to me sent it really early which was awesome and the condition of the book was good!!!! A+++

0 of 0 people found the following review helpful.

Not for me!

By KCR

Needed this for my class to become credentialed, hated it! I wanted a book that taught me science and different activities/lessons, this doesn't teach you that at all!
