The Arthurian Name Dictionary (Garland Reference Library Of The Humanities) From Brand: Routledge. Join with us to be member below. This is the site that will certainly offer you reduce of searching book The Arthurian Name Dictionary (Garland Reference Library Of The Humanities) From Brand: Routledge to read. This is not as the various other site; guides will remain in the types of soft file. What advantages of you to be participant of this site? Obtain hundred collections of book link to download and obtain consistently updated book each day. As one of guides we will offer to you now is the The Arthurian Name Dictionary (Garland Reference Library Of The Humanities) From Brand: Routledge that has an extremely completely satisfied principle.

From Library Journal

Grade 9 Up-Serious students of the Arthurian legends will find this a useful and informative resource. More than 5000 alphabetical entries include the people, places, items, and themes found in Arthurian literature written between the 6th and 19th centuries. The text goes beyond simple definitions, incorporating background on how individuals fit into a particular legend and/or their evolution as characters in the stories. Significant figures such as Guinevere and Merlin warrant several pages. While alternate spellings or names follow the main entries, they are not cross-referenced and there is no name index. A "Source Index" consists of an annotated listing of the hundreds of resources from which the editor drew his material. While some readers may find more detail here than they want, enthusiasts will find that they have tapped into a wellspring of information.

From Booklist

The legend of King Arthur and his knights and ladies has been around for more than a millennium. It probably began in the Dark Ages in Wales, as oral tales passed down through the years. Then it was picked up by the English, transmitted to Europe, and returned to England to be codified by Sir Thomas Malory. Meanwhile, Arthur had found a new best friend (Lancelot), a quest (the Holy Grail), and a place to live (Camelot). The Arthurian legend is best described as an amalgam of many writers' ideas, plots, themes, characters, and motifs.

To comb through 1,500 years of Arthuriana and find every name associated with it is a considerable task that Bruce has accomplished admirably. The extremely invaluable New Arthurian Encyclopedia (Garland, 1996) provides only 90 names (by design, it should be noted), whereas this volume has more than 5,600. It makes for both a fascinating read and a very useful reference tool. The work consists mostly of names of major and minor characters (Arthur, Gwythyr, Tristan, Petipace of Winchelsea), but there are also references to places, events, and things. The author has wisely made his cutoff with Tennyson's *The Idylls of the King* (1859[^]-

1886) or the volume would be twice as long because of the current proliferation of Arthuriana. Each entry is listed alphabetically and depending on the subject can be very short or quite long. The entry on Arthur is nine pages long. It looks first at his historicity and how the legend around him developed. Then it notes what the texts say about the dates of his reign, how they portray his character, what insignia he carried, and where his grave is located. Entries are fully cross-referenced with the excellent appendix on sources that lists not only author, title, and date but provides brief descriptions, some keywords, and a note on the text that was used. This is a very useful work that most large public and academic libraries should have.

Review

...extremely invaluable...a fascinating read and a very useful reference tool...that most large and public libraries should have.

–Reference Books Bulletin

Serious students of the Arthurian legends will find this a useful and informative resource.

–School Library Journal

...a valuable tool for study and enjoyment of an already-essential myth of our civilization and greatly to be recommended to individual readers and libraries alike..

–Arthuriana, January 2000

An excellent companion to The New Arthurian Encyclopedia.... It includes all the characters and places; for the major Arthurian texts, the work is comprehensive.

–Booklist/RBB, June 1 & 15, 2004

Even experienced students of Arthurian literature will find plenty of new discoveries in Bruce's dictionary. Here the unbelievably wide world of Arthurian romance that William Caxton marveled at in 1483 is itemized in fascinating, specific detail. The book should be a gold mine for future Arthurian novelists as well as treasure for the inquisitive scholar.

Naturally, it will certainly not obligate you to take several pages. Just page by page relying on the time that you have to review [*The Arthurian Name Dictionary \(Garland Reference Library Of The Humanities\) From Brand: Routledge*](#)

THE ARTHURIAN NAME DICTIONARY (GARLAND REFERENCE LIBRARY OF THE HUMANITIES) FROM BRAND: ROUTLEDGE PDF

This text presents a comprehensive dictionary of characters, places, objects and themes found in the legends of King Arthur and the Knights of the Round Table. Information is drawn from significant Arthurian sources between Gildas's "De Excidio Britanniae" (c.540) and Tennyson's 19th-century "Idylls of the King". The book contains names extracted from over 250 original Arthurian texts and includes information on characters such as Lancelot and Gawain, places such as Camelot and Camlann, objects such as Excalibur and the Holy Grail and themes such as the Sword in the Stone and the beheading game. Each entry provides a description of the name, including possible origins or historical basis of the name, and major characters and themes are discussed extensively and their evolution through the series of texts is traced.

Bravo from Green Knight Publishing!

By Peter Corless

Christopher Bruce's encyclopaedic work is a magnificent compendium of all of the major 6th to 19th century Arthurian sources.

As a publisher of books and games based on the original Arthurian sources, I have turned to this book not as my 'Bible', but as a sort of 'Bible Concordance'. Which stories can I find Percival (or his many alternative names) occurring in?

I found this book to be worth ten, if not a hundred times its cover price in terms of compiling years of research into a single treasury of Arthurian knowledge.

1 of 1 people found the following review helpful.

Magnifique!

By A Customer

As an avid Arthurian reader, I am amazed at the completeness of this wonderful reference. Nowhere have I ever seen such a valid and thorough resource. My son has loaned me his copy but I am looking forward to adding one of my own to my library. It is hard to believe that anyone could compile such a great volume so masterfully! Bravo, Mr. Bruce!

2 of 2 people found the following review helpful.

A masterful melding of medieval lore!

By A Customer

I was amazed to discover how young this first time author is. He has produced a profoundly complete and thoroughly researched scholarly work that is a "must read" for any student of the Aurthurian Legends. Mr. Bruce has researched even the most obscure references and stories of Arthur and the other characters associated with the legend. Thank you for your excellent work.
