# THE GOODY MIX (BAKING OUTSIDE THE BOX BOOK 1) BY LAURA HICKMAN PDF

Baking Outside the Box Vol. 1, The Goody Mix is the first in a series of cookbooks that use a revolutionary new mix-method for desserts. Dubbed 'easy bake for grown ups', you can bake cakes, bars, cookies, snack cakes & more in a snap! It's fun, fast, frugal and foolproof.

The Goody Mix is the essential core book to the Baking Outside the Box method. Made for today's busy lifestyle, it reveals how to bake homemade desserts as easily as if they came from a store-bought box-mix, but with huge advantages. Inside are dozens of sweet and easy recipes using our unique mix system.

Both experienced and beginning bakers will enjoy clearly written step by step instructions and lots of mouthwatering photos, (color photos on Kindle Fire!). You'll be starting your oven and turning out delicious homemade treats in no time.

Then using the Goody Mix and the 'Recipes in Translation' section learn how to change your old-fashioned, from scratch recipes to an easier Baking Outside the Box recipe. Find sharing, support and fun on the blog: <http://www.bakingoutsidethebox.com> Join us in a sweet revolution.

I can't believe it has never been thought of before!

By Jared Neslen

I must admit I am not much of a baker. But I also have to say this book helps make it easier. Have you ever noticed that the majority of the things we bake have many of the same ingredients? well this book helps us to combine them all at once and save us loads of time adding them to the recipe later. having a premade mix ready when I want to make something is easier and cheaper than going to the store to buy the ready made mixes anyway. If you want a cook book that simplifies the process of baking this one is for you. The only downfall is now I have to keep plenty of my ready made mixes in stock so I can keep up with my sweet tooth.

Elegant and Simple

By Randlehouse

Cooking intimidates me. I can do it when I put my mind to it. I just don't like to mess with it. HOWEVER - I love entertaining and giving gifts, especially this time of the year (December). So I've got a problem. Then - here comes this book - this beautiful, gorgeous, clearly written, sensible, fun book. Ms. Hickman has come up with a very simple concept: you reduce the mystery of cooking, especially of cooking the bright, charming things, to a very understandable basic foundation. And once you get that very simple foundation down, there is no limit to what you can do - last minute gifts, elegant party desserts. You can amaze yourself.

Even for people who have been cooks all their lives, this approach will save them precious time. You can even take recipes that are your true-blue fall back dependable ones and adapt them to this very simple way of going about it. The book itself is GORGEOUS. The photography is yummy, the layout is clear and elegant. Heck - I FEEL elegant just reading the thing. Every person who ever bakes should have this book. And I was worried about cooking with the Kindle? Ha. You prop it up like you would a recipe card or book - and if you get it splattered (that's not an "if" in my case), you just wipe it off. The dogs will no longer be tempted to chew up your favorite recipes. This is a huge plus for me - yeah, I know. Go ahead and snicker, but it's true. Anyway, this just really is a beautiful book, inside and out.

I like this BUT. . .

By knittingnana

I love the idea of this book - I like mixes and having things ready to bake quick and these look like good recipes. My only problem with this book is that it is only available on Kindle. That means if I want to look up a recipe I have to get out the book I am reading - find this book in the list and then either flip pages or look in index to find which recipe I wanted. When finished I have to go back and find my book. It would be great if I had the option of printing the recipes - they would be so much easier to use. Too bad because I think this is really is a really great idea and I would so love it in print.
