Frank Cotton's insatiable appetite for the dark pleasures of pain led him to the puzzle of Lemarchand's box, and from there, to a death only a sick-minded soul could invent. But his brother's love-crazed wife, Julia, has discovered a way to bring Frank back—though the price will be bloody and terrible . . . and there will certainly be hell to pay.

Excellent Book on Man's Depravity and the Human Heart

By A Customer

I first came across this book hesitant and unsure of what to expect. I had already seen the Hellraiser movie and I thought I might have been disappointed because I already knew the storyline. However, after reading this book I realized that Clive Barker tells things better on ink and paper than on a movie screen. Even with all the guts and gore in the book the reason why the book captures me so much is the fact that Barker tries to show us what is inside the hearts of people. The actual theme of the book is what makes this book fascinating not the blood and suspense. This is a true horror story if there ever was one. The Cenobites also add to the intrigue and horror to the book. The Cenobites are demons who offer limitless pleasure to all the senses only to realize afterwards that they are only interested in pain and suffering. The introduction of the book gets the mood going and afterwards it will want to make you want to read more. The interaction between Frank and Julia also adds to the fascination of the story. Frank's character you could say depicts the restless and ceaseless anguish of mankind looking for something "beyond" what this world offers. Frank shows us that human beings are beings that are driven for the need for lust, pleasure, and sensory satisfaction. That people will even go beyond moral imperatives to satisfy their carnal passions and live life as if it was one sensory experience. Though this view of man presented by Barker seems dismal and discouraging, he does teach us the unfortunate condition of man on earth. Barker does a good job showing us the horrors contained within man's heart and where it can lead us if our desires are not contained.

A brilliant book!

By Jessica Norris

I wasn't sure what to expect with a Clive Barker novella, to be honest I had seen movies with his name attached and had more often than not been let down. I picked this book up from a paperback swap site and was surprised at how short it was. Although an avid horror fan, I love the Hellraiser film series!

I was pleasantly surprised. Although it is obvious that the original Hellraiser film follows this story almost exactly, the daytime soap opera acting kept the movie from realizing the horror of this book. I found "Hellbound Heart" to be a surprisingly quick read, easy to follow and descriptive enough to see what is being said without being overly wordy. I would have to agree with the other readers that the concept is very Lovecraftian, the style however is very different.

The story follows Frank, a disturbing man who has sought out pleasure of the senses his entire life. Viewed by others as a wastrel, he spends his time committing petty crimes and seeking to fill his lustful desires. He learns of a special puzzle box, which is supposed to open a door to the Cenobites who will show him a new realm of pleasure. Our journey starts as Frank opens the box, meeting the Cenobites and discovering the reality of their being.

What follows is a tale of lust, pain and pleasure. To what lengths will someone go to fulfill their fantasy? What are they willing to believe, to do, and to suffer through? The book is well written and can be taken at just face value as a horror tale. However it also begs to discuss the reality and strength of one's desire and fantasy. With this being one of his first novels, there are some writing flaws to be found throughout the book, but none are distracting enough to jump out at you. My main irritant was not having any background or understanding of the relationship Kristy had with the rest of the characters. At first I assumed her to be a sister, I recalled from the movie she was a daughter, and then finally settled on the idea that she was an old friend of Rory's. Her relationship is never laid out for us. I think knowing that bond would have strengthened her position in the story since she is so vital to the finale. All in all this is a wonderful quick read for any

horror fan.

Good, but not great

By Eric Laufer

I had a desire to read this ever since I watched Hellraiser. It was good to see where everything came from, and the movie followed the book closely. I was a little upset that there was not a lot of description. I know some writing is meant to be vague, but a little more description would have been great in order to get a better picture of what people looked like or what was about. The Cenobites were barely described, though Pinhead goes make the appearance.
