Reads as if written by a lovelorn groupie

By S. Adams

Although this book reads painfully as if it were written by a lovelorn groupie, it does offer some good recommendations for the use of the remedies. Since the tone of the author is so adoring and sickly sweet, with a relentless he-can-do-no-wrong motif, when talking about her subject, I would have to think twice before giving credence to this "biography". Not even Mother Teresa was this saintly...

I would recommend it for the valuable remedy and application references, of which there are enough, in my opinion, to validate the purchase of this little book.

As a biography, I would possibly consider it as such, but only in a very superficial sense: perhaps timelines and places. Otherwise, my skepticism takes hold and questions.

It is a beautiful history of his life and especially of how he ...

By Shirley B.

For anyone with a passion for the Bach flower remedies, this is a must read. It is a beautiful history of his life and especially of how he was led to discover the remedies.
