Principles to Live by

By R. Ledbetter

This book provides a lot of insight to everyday christian living. Warren does a good job of organizing the book of proverbs into logical studies. I was able to work thru the book in a little over a week. It will be a reference for me in the future.

Study companion

By Lviers

Good, in depth study of the book of Proverbs when used with its companion study book. This study will take a while but well worth it.

Very good instructional manual and study guide

By Sparrow

A very good study of Proverbs. It emphasizes scripture study and cross references with scriptures in other parts of the Bible. It also uses commentary and good questions to tie it all together. I bought this for teaching a women's Bible study at my church. I plan on using more of the studies in the future.
